DETAILED ACTION

1. This application is an RCE of SN 10/718,403. Claims 22-24 have been canceled. Claims 1-21, 25-29 are pending.

2. The following is an examiner's statement of reasons for allowance:

Applicants have filed a PTO-1449 recited closely related art. The closest disclosure is found in US 6,113,877 wherein in claims 8-10 of the reference, generically included the A is CH=CH compounds. A survey of the reference indicated that the Mach et al. '877 reference did not disclose quaternary salt as the instant claims and all the compounds described and enabled in the reference are limited to the A is CH₂CH₂ or (CH₂)₃ compounds (see CA 127), thus, exclusively devoid of the A is CH=CH compounds. Such disclosure is considered a teaching away from the A is CH=CH compounds. In re Baird 29 USPQ2d 1550. Therefore, claims 1-21, 25-29, which are neither anticipated nor rendered obvious by the art of record, are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
